12	Reserve; <i>opmerking: 16 ampère en geen 10 Ampère zoals in de tekening</i>	16
	Accuvoltmeter met 2-standen schakelaar / stand I slechts benut	

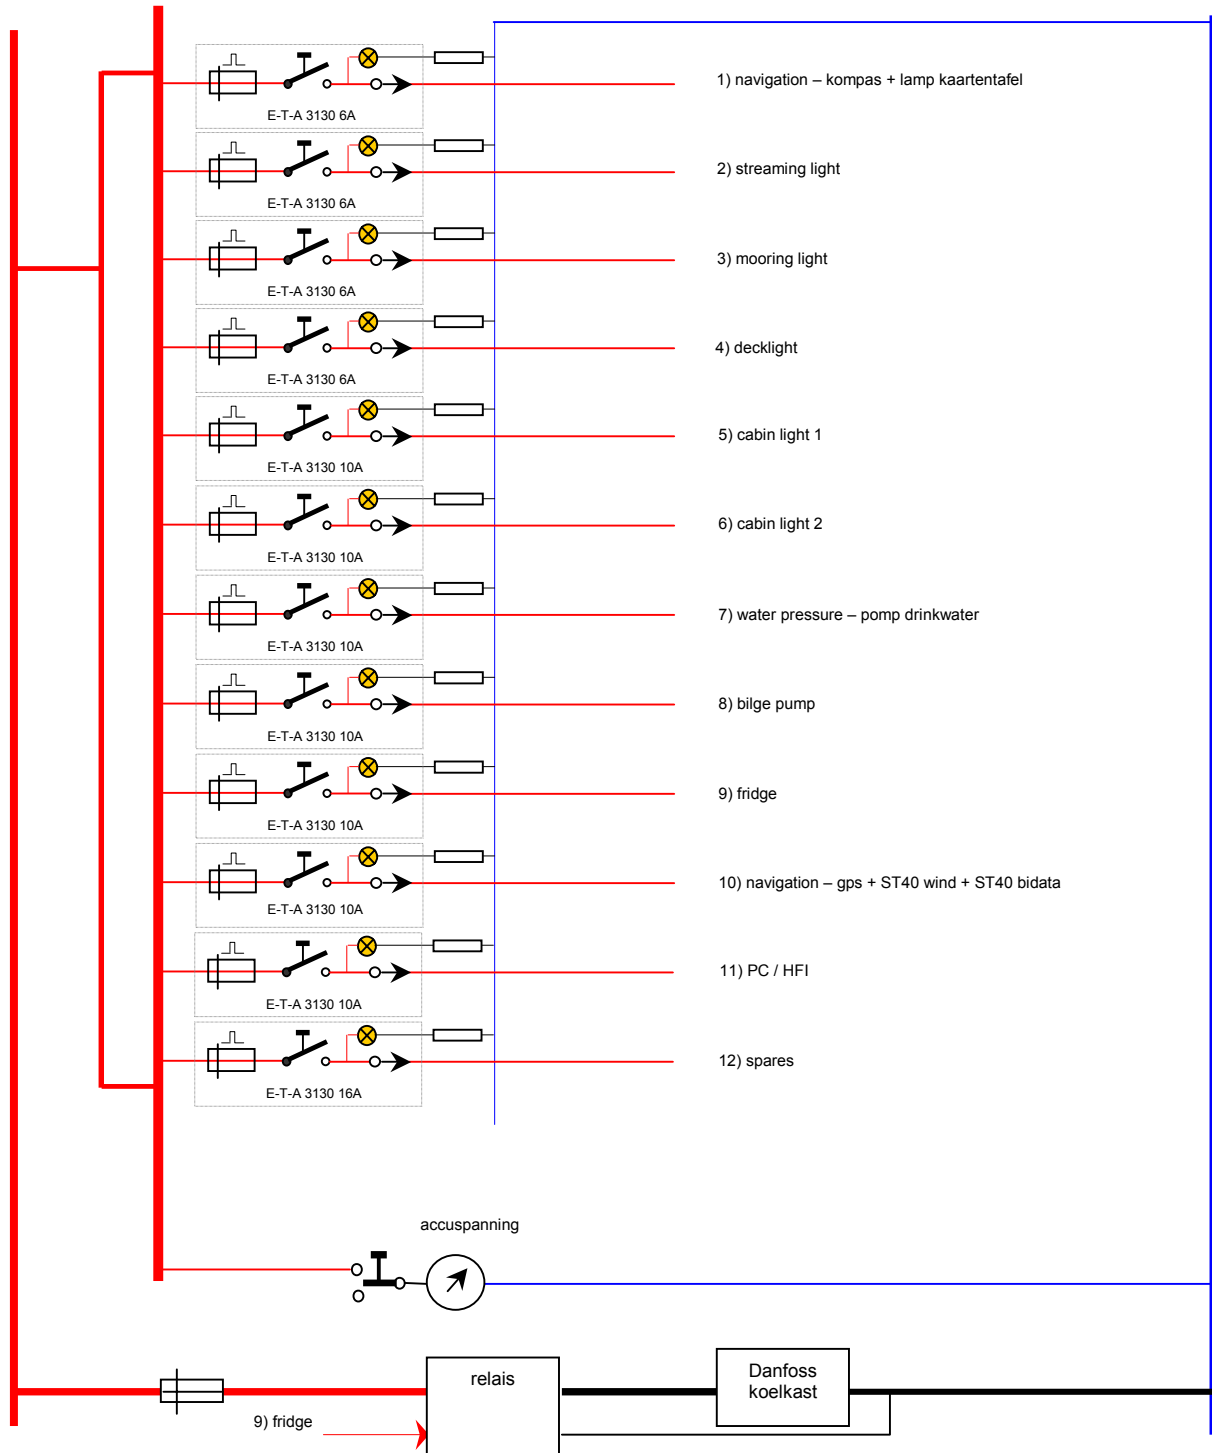

Opmerking:

De toegepaste schakelaars zijn feitelijk stroomverbrekers.

Bij een te hoge stroom wordt de stroomkring door deze stroomverbreker automatisch onderbroken. Door de stroomonderbreker te bedienen (aan/uit) wordt de stroomkring weer hersteld.
